

## *Report to the Auburn City Council*

Action Item

Agenda Item No. 10

City Manager Approval 1312

**To:** Mayor and City Council Members  
**From:** Jack Warren, Director of Public Works/City Engineer  
**By:** By Kevan Little, Public Works Engineering Technician  
**Date:** January 15, 2009  
**Subject:** Multi-Modal Parking Lot Utilization

### The Issue

Information item only: Does the Multi-Modal parking lot in the City of Auburn need to be enlarged or supplemented?

### Conclusion and Recommendations

None: Information Item only.

### Background

The City of Auburn has received comments particularly from CC Riders that the Multi-Modal parking lot needs to be enlarged due to the lack of available parking spaces. After these comments were received the public works department conducted a twice daily count of the vacant parking spaces in the lot. The count was conducted from November 25, 2008 to January 15, 2009, except city holidays. During the period of the count there was a minimum of 13 parking spaces vacant and a maximum of 56. The lower section of the parking lot is typically full and the empty parking spaces are in the upper lot not readily visible from Blocker Drive. During the count the parking lot was not observed to be completely full.

View of Multi Modal Upper Parking Lot during parking survey 11:30 am.
